1.10.2022 - 31.10.2022

About the Society for the Promotion of Hospice Care

Established in 1986, SPHC has been providing end-of-life care services for over 35 years. We operate JCHH, the first family-oriented hospice centre in Hong Kong, where our multidisciplinary team of healthcare professionals delivers comprehensive in-patient care, home care, day care, and bereavement services.

SPHC offers subsidized care to ensure that everyone, including low-income families, has access to quality end-of-life care. However, as we are a non-profit organization without government subvention, your donations are urgently needed to help us continue our mission. All proceeds will be used to support underprivileged terminal patients and their families!

2 Service Units

- Jockey Club Home for Hospice
- Jessie and Thomas Tam Centre

12,972 Individuals served

Hike for Hospice – Overview

Hiking fittingly embodies the highs and lows of life, and a perfect way to show support for the terminally ill in the last chapter of their life's journey. As a non-profit charitable organization without government subvention, the Society for the Promotion of Hospice Care relies solely on public donations and service income to support its operation. Since 1992, Hike for Hospice has been one of its main annual fundraising events.

Every year, participants of Hike for Hospice not only get to spend time in nature but also raise money to help terminal patients and their families, regardless of background, receive the best palliative care and bereavement service.

Join Hike for Hospice today to support a meaningful cause!

Event Information

Due to the fifth pandemic wave, this year's Hike for Hospice has been postponed to October. In recognition of World Hospice Day on 8 October (Saturday), Hike for Hospice will once again be a month-long virtual event that welcomes participants from both Hong Kong and overseas. Participants can complete their preferred hiking route in their own time and upload their results to the mobile app.
